LOCAL MINERS VOTE TO RETURN TO WORK

In spite of the efforts of "stand-pat" agitators from Coleman and Hillcrest to frustrate any action on the part of the local workers towards returning to work, a vote was taken here on Monday afternoon, resulting in 184 for and 98 against.

Following this very decisive action, the local committee held conference with Mr. Charbonnier, managing director and other officials of the West Canadian Collieries.

A meeting of Greenhill miners took place on Tuesday morning, when the proposals of the company were placed before them by the committee, and organization of a new union forthwith proceeded.

It was decided to name the union as a branch of the Canadian Federation of Labor. The following officers for the new local were duly elected:

President—Frank Leary.
Vice-President—A. Caccioni.
Financial Secretary and Treasurer—W. Oakes.

Recording Secretary—D. A. Howe.
Executive Committee—F. Leary, W. Oakes, D. A. Howe, F. Nemrava, W. Peters, F. Bombardier and A. Caccioni.

We understand that a vote of the miners was taken at Coleman on Monday night, resulting in a decision to remain out with Hillcrest.

Blairmore miners are signing on and quite a number have already started to work.

Prospects for steady work for six days a week, indefinitely, are in sight, and an agreement covering from one to three years will likely be signed.

BELLEVUE TAKES

SIMILAR ACTION

At a meeting of Bellevue miners on Tuesday, by a vote of 151 to 101 the men decided to break away from the United Mine Workers of America and become a branch of the new Canadian workers' association. The new local was organized with the following executive:

President—David Morris.
Secretary-Treasurer—Jack Brooks.
Executive—J. Fisher, L. Dambols and Jack Longworth.

Work at Bellevue was resumed yesterday and it is confidently felt that full time will be assured for the greater part of the summer months.

LET US IMPROVE OUR TOWN

Plant a few trees this spring, good citizens, and help beautify your home and your town.

Plant flowers, and shrubs and grass—it will take but a little effort—and the result will bring beauty and delight to your doorstep.

Let that wonderful alchemist, Nature, have an opportunity to paint the gorgeous colorings, to offer incense in the way of sweet perfume, to perform her annual miracle.

Let us make our town a better and a happier place to live in.

There will likely be a meeting of the Blairmore Board of Trade some time next week.

The regular monthly meeting of the L.O.E. will be held on Monday evening next, at 7.30, in the Greenhill parlor.

It seems that the Home Bank depositors will have to wait till all appeals are settled, even if it takes a generation to do it.

Mr. R. W. Harold Pinkney developed blood poison in one of his feet while on the western tour with "The Private Secretary" troupe, and is now a patient of Dr. Olivier here. He is able to be around today.

To produce hair of a bald head, soak the head in salt water until the hair gets dry, and when it comes out for a drink grab it and tie it in a knot.

COLEMAN JURY MAKES RECOMMENDATIONS

The inquest as to the cause of Harvey Knauss' death was held at Coleman on Monday morning before Coroner A. M. Morrison. After viewing the body and the scene of the fatal accident, the jury brought in the following verdict:

"We agree that Harvey Knauss met his death on Saturday, April 4th, between seven (7) and seven-fifteen (7.15) a.m., in the yards of the International Coal and Coke Co. property."

"That the cause of his death was the deceased taking hold of a ladder which came into contact with a high tension wire, while in the employ of the International Coal and Coke Co."

The jury made the following recommendations:

"(1) That all ladders used in the vicinity of electrical wires be constructed of practically non-conducting material. (2) That the International Coal and Coke Co. install a government telephone in a convenient place in the yards, to be used in case of accidents and to phone the doctor."

The jurymen were: P. L. Unsworth, W. Chapin, W. Roughhead, James McCrea, Joe Michalsky, W. N. Donaldson (foreman).

FERNIE COAL TO VANCOUVER

Since the settlement of the coal miners' strike at Fernie, and work at the mines has been resumed, Fernie coal has been coming into this city in large shipments.

Fernie coke is also finding a market here, in competition with coke from various foreign ports.

Despite the fact that the Crows' Nest coal is paying \$4.20 a ton freight, it is being unloaded in this city and sold in competition with coal coals.

W. R. Wilson, president of the Crows' Nest Pass Coal Company, is developing the Western route for this coal and has been very successful in expanding business on the Coast.

To assist in the bringing of Fernie coal to the Coast the Great Northern Railway Company has reduced the freight a little and it now goes through the United States in bond, coming back here by way of Blaine.

Representatives of the Fernie coal interests are negotiating to put bunkers in this port for the coaling of ships.

Coke bunkers will also be established here soon to care for local demand for domestic coke.—Vancouver Sun.

KIMBERLEY TO GET TWO TRAINS DAILY

There will be two trains daily this summer to and from Kimberley and Cranbrook. Notice to this effect has been posted by the C.P.R. The new schedule became effective on Monday.

Trains will leave Kimberley every day, except Sunday, at 8.45, arriving at Cranbrook 11.30; leaving Cranbrook at 12.25, they will arrive in Kimberley at 13.55; leaving Kimberley at 14.25, will arrive in Cranbrook at 15.55; leaving Cranbrook at 16.30, will arrive at Kimberley at 18.15.

A meeting was held at the Greenhill Grill last night, at which the Blairmore Golf Club was reorganized for the year 1925.

The ladies of the Union church are holding their annual Easter tea and sale of home cooking, plants, cut flowers, Easter eggs, etc., in the Lodge hall this evening. Tea is being served from 3 to 6 p.m.

Bachelors are being taught to cook at a school opened recently at Battersea, one of the London boroughs. The purpose of the authorities is to show unmarried men how to help themselves and be a bit more independent of the restaurants. The teacher is a woman.

FUNERAL OF JAMES HUNTER

The funeral of James Hunter, one of the early farmers of the Nanton district, was held at the Baptist church this forenoon at 10.30. The service was conducted by Rev. J. H. Faulkner, assisted by Rev. A. W. Coone. The pall bearers were H. M. Shaw, C. H. Marshall, James Scott, Wm. Robertson, F. Hardwick and F. G. Jewell.

Mr. Hunter died in Calgary Tuesday morning, March 31st, at the age of 88 years. He located at Nanton in 1902, and farmed here for five or six years, when he retired, but continued to make his home here until the death of his wife about ten years ago. Two of his sons, J. F. and J. T. Hunter, were also early residents of this district.

We hope to be able to give a more extended sketch of Mr. Hunter's life next week.—Nanton News.

STORES TO CLOSE.

FRIDAY AND MONDAY

We are asked to announce that stores will close tomorrow (Good Friday) and Monday (Easter Monday).

In an address delivered recently before a Truro audience by Miss Agnes McPhail, M.P. for Southeast Grey, Ontario, she stated that the poverty existing among the miners of Cape Breton was reflected in the pinched look of little children, many of whom were suffering from rickets and some touched with tuberculosis. She did not wish to enter into any controversy, but she was surprised at the stand-aside attitude of the provincial and federal governments. She spoke of money being sent to foreign countries to christianize the heathen, and said that something had better be done in Canada.

A Lesson in Success

Teach your children to save. Open a Union Bank Savings Account for each of them. Let them be friends with the Bank Teller and take their own deposits to him.

The easiest road to success is the savings habit

HOLDS MIND BEST AT SIXTEEN

Human intelligence appears to reach the maximum at the age of sixteen years, according to deductions set forth in a book by Geoffrey H. Thompson, professor at Armstrong College, Newcastle-on-Tyne.

These deductions it is explained, were made after careful research of a mass of statistics, and indicate that a person may add to his book learning and his knowledge of the world, but that he will never have a sharper brain with which to tackle problems than when he is about the age of sixteen. Professor Thompson asserts:

"Of the majority of cases it can be said that an intelligent man was intelligent as a child. If he did not show it in school, it was the result of his teachers. It simply meant that no lesson was so presented to him that he would take an interest in it."

A Kentuckian died at 92, after using tobacco for 76 years. Yes, it will get you sooner or later.

Thomas Vien, Liberal, intends to raise in the House of Commons the issue whether divorced persons shall have the right to marry.

The Presbyterian church at Little Bras D'Or, Nova Scotia, said to be the oldest "free church" in the world, was destroyed by fire on Tuesday.

Detroit's new Klondike, Windsor, Ontario, opened with a rush on Friday, as soon as it became known that the 4.4 per cent beer bill had passed the Ontario legislature in committee.

The annual meeting of the provincial I.O.G.E. will be held in Calgary, in the sun room of the Palliser hotel, on Wednesday and Thursday, April 29th and 30th.

"The next war will destroy civilization," said a speaker in Toronto. If the Paris fashion news is correct—skirts above the knees, red ears, curled eyelashes, etc.—let the blow fall!

The fishery department is supplying 300,000 brook trout eggs to restock the streams in the Fernie district this year. Fred Denison, of Fernie, is the ever-active secretary of the Fernie Rod and Gun Club.

Rev. William Buchanan, 81, pioneer of the Methodist ministry, occupied the pulpit of Wesley church at Lethbridge on Sunday morning last, on the occasion of the anniversary services of the church.

Gerald Chapman, notorious bandit, has learned what all crooks soon learn, that the law is unrelenting. His daring robberies and escapes from the police made him a feared gunman, but the law finally won.

The marriage of Clara Gertrude Franz and Harold Alexander Cleland, both of Cowley, took place at Lethbridge on Tuesday. Mr. and Mrs. Cleland will make their home near Cowley, where the groom is a prosperous rancher.

It is rumored that a British company has offered \$50,000,000 for the Premier "wonder mine" in British Columbia, one of the greatest silver mines in the world. W. R. Wilson and A. B. Trites, of Fernie, are principal shareholders.

Invention of a device known as the prismatic ring will enable radio fans to see the next Olympic games as well as hear the cheering. It is predicted in a report to the American Chemical Society. The inventor also promises that those at home may see football or baseball games, a regatta or baby parades while these things are actually happening.

"THE PRIVATE SECRETARY"

CRANBROOK, B.C., April 7.—"The Private Secretary," that popular and ever-welcome English comedy-farce was given here in the Auditorium on Saturday evening by the dramatic club of the Elks' lodge of Blairmore. It was exceedingly well received, as indeed it deserved to be, the play, apparently lacking none of the finished effect that professional talent could have given.

The humorous situations were entered into by the members of the cast with great gusto and the finesse put into the play enabled the most obscure of the points to be clearly seen, and the gales of laughter from the big audience showed that the play had lost none of its popularity. All the parts were exceptionally well taken. G. Stevens as the enigmatic-looking private secretary, Rev. Robert Spalding, being an outstanding success, his innocent mannerisms throwing Mr. Cattermole, taken by R. Wootton, into very well simulated rages, that were greatly heightened by the disturbed state of the latter's liver. The four ladies also showed up well, carrying out their essential parts with a display of genuine talent.

The play was put on by the Cranbrook Elks in aid of their annual field day for the children, and they will reap substantial returns from this performance. The Cranbrook Elks' band was in attendance to provide the music, W. A. Burton acting as conductor, and their numbers were very much appreciated.

The Wise Preacher

A planter asked a colored preacher what subjects he usually preached on in his labors among his people.

"Oh, difrent subjects," said the preacher. "Sometimes Ah preaches on love, sometimes on baptism, sometimes on heaven and sich subjects."

"Why don't you preach occasionally on the subject of chicken-stealing?"

"Well, Ah tell yo', boss, when Ah preaches on dem subjects hit allers throws a kind o' coldness over de meetin'."—Everybody's Magazine.

"First Hunter—"Killed anything?"
Second Hunter—"Not a thing! Wish I'd gone motoring now."

Legal accounts in connection with the famous Dennistoun case in London will likely reach \$200,000.

Moonlight dances in North Dakota are tabooed from now on and must be eliminated from public dance programmes, under the new law of the state which is now effective. Cheek-to-cheek dancing and other forms of light fantastic, which might be construed as indecent, also are barred, while the new law decrees that a police official must be in attendance at all public dances.

Stop Falling Hair!

Money Back if it Doesn't

The big problem with scalp specialists is to get the public to form a consistent habit of taking care of their hair. Van Ess Liquid Scalp Massage comes in a patented bottle with a special rubber application attached. The method of application is easy—and cleanly.

The applicator feeds the treatment through rubber apertures directly to the roots of the hair. One minute a day with Van Ess is sufficient. Stops falling hair, cures dandruff, grows new hair. We give you a positive 90-day guarantee. FOR SALE BY BLAIRMORE PHARMACY

Beverage Peddler in Cairo

Beverage Peddler in the Cairo Bazaar photographed on Canadian Pacific S.S. Empress of France during her world tour which concludes May 2, and then goes on the "Round America" trip via San Francisco, Balboa, Colon, Havana to New York which is reached May 22. A number of Canadians will take this latter part of the trip.

Here and There

A total of 1,003,672 barrels of apples have been shipped to the English market from Halifax since the beginning of the shipping season up to February 24. London took 354,715 barrels and Liverpool and Manchester came second and third with 267,833 and 172,880 barrels respectively.

Eighty-four thousand automobiles are now being operated by citizens of the Province of Quebec equivalent to an average upkeep of \$300 per year each, a total expenditure for maintenance alone of \$28,000,000 every year, according to figures supplied by the Montreal Automobile Trade Association.

Around 16,000 horses were shipped from western Canada to eastern Canada in 1924, most of them coming from Saskatchewan. This province is maintaining its lead as the greatest horse-breeding centre of the Dominion, with a total of 1,170,745 head, an increase of 33.44 per cent over 1923.

The steamship "Princess Marguerite" successfully passed her trials on Clydebank when she developed an average speed of 22.56 knots and a best run of 23.2 knots per hour. The Scottish Congress, "Princess Kathleen" also will be used on the Seattle-Vancouver-Victoria route this coming season.

Monsignor Heylen, Bishop of Namur, Belgium, and permanent president of the Eucharistic Congress, arrived at St. John, N.B., last week on the "Montrose." His Lordship was on his way to Chicago where he will make preparations for the Congress, to be held there in June, 1926.

Ivan Shvegel, Canadian Pacific Railway representative in Jugoslavia, interviewed here recently, stated that his countrymen were 89 per cent agriculturists and that he felt "certain that in the mutual interests of both countries the future will, in the field of immigration, lead to closer and closer relations between Canada and the Kingdom of the Serbs, Croats and Slovenes."

A romance of the peerage and the steers was personified by F. E. Bailey, grandson of the late Lord Glasgow, who arrived at St. John, N.B., last week among the third-class passengers on the "Montrose." Bailey, who is just 17 years of age, was so struck with Canada that he can away from Bray Court College at Maidenhead and after a number of adventures realized his ambition by sailing on the "Montrose."

The largest batch of Clydesdale horses that has ever sailed from the Clyde, valued at \$10,000, was embarked recently on the "Marloch." It consisted of 14 stallions and 3 fillies, and there were also ten Percherons from Antwerp on the "Marburn," while ten more Percherons and Belgians will be shipped at a later date. The horses were purchased by Mr. W. J. McCallum, of Brampton, Ontario, and Brandon, Manitoba.

George E. Duncan, of Detroit, believes in romance. He believes in it so much that last year he took 48 Detroit boys for a trip to Alaska. This year, he is going to take a good many more and he will include Canadian youngsters. He has been visiting in Toronto and his object is to find some boys willing to take a holiday in the Far North next July. Mr. Duncan, who was born near Chatham in Ontario, has developed this unique hobby owing to having himself been taken on a trip to Alaska forty years ago when he was a boy.

Here and There

Under the Joint Canadian-British Government scheme, 3,000 families are being brought to Alberta this year and the first party of families will arrive in April. They will first be guaranteed employment and later will take up their own land.

Henry E. Suckling, Treasurer of the Canadian Pacific Railway since 1908, died recently at Atlanta, City after an illness of several months. He was born at Gibraltar in 1881 and was associated with the railway in a treasury capacity since his early manhood.

J. C. Mitchell, of Dahinda, Sask., known as the "world's champion wheat grower" returned home recently from a lecture tour of the British Isles. "Go West, young man, go West" is his advice to all who wish to try their fortunes in the Dominion.

Speaking at Toronto, Hon. Charles McCrea, Minister of Mines for Ontario, said that the estimated value of the mines of the province this year will be around \$75,000,000. In regard to gold he stated that 1923 Ontario was expected to top the total production of the United States.

A new Silver Trophy donated by the English Football Association to the Dominion of Canada Football Association for annual competition among Canadian clubs has arrived in Canada and will be on exhibit at Canadian Pacific stations at Montreal, Toronto, Winnipeg and right across the West.

An expedition which will try to climb Mount Logan (19,350 feet) in the Yukon, the loftiest peak in Canada, is to leave Vancouver in April. It will be headed by A. H. McCarthy and Col. W. E. Foster, of Vancouver, and six other gentlemen, including a representative of the English Alpine Club, will complete the party.

Agricultural products in the Province of Manitoba during the year 1924 reached a total estimated value of \$164,312,857, according to figures issued by the Provincial Department of Agriculture. The amount is nearly double that of the previous year and is accounted for largely by the big upturn in the price of wheat.

The shield which was taken from the gates of Old Quebec when the city was captured by General Wolfe, and now in the possession of the town of Hastings, will be returned to the Ancient Capital. The Hastings Council have decided to return the shield which was presented to them by General Wolfe Murray, a descendant of the famous soldier.

Miss Ethel Topinka, temperance lecturer, gave a lecture of her quality when she lectured a socially prominent audience for coughing in the middle of a concert at Englewood, N.J. "If you can't control yourselves, please don't stay in the middle of a concert. Fifteen disgruntled members of the audience left the hall indignantly."

Trail Riders of the Canadian Rockies have developed the idea of using snow shoes for horses over the heavy snow tracks of that region. In this way great quantities of supplies are brought considerable distances across trails that would otherwise be impassable to heavy loads. Trail Riders are holding their second great Fox-Wave early in August next.

Devising a new kind of motion picture camera with a built-in motor that is almost noiseless in operation, Burton S. Moore, proprietor of the Nietau Camps in New Brunswick, has succeeded in taking about 4,000 feet of film of wild life in action which will be shown in due course on Canadian and United States screens. He has been particularly successful in depicting every motion in that special phenomenon by partridges known as drumming.

Over half of last year's western grain crop was handled by the Canadian Pacific Railway according to data just issued by the Dominion Bureau of Statistics. Of the total grain inspections numbering 172,856 cars during the seven months to February 28 last, 99,227 cars were on the company's lines, representing 67 1/2 per cent, while of the 130,157 cars delivered at Fort William and Port Arthur during the same period 68,690 or 52.8 per cent are credited to the company.

Between 300,000 and 400,000 Canadians and Americans of Norwegian origin will gather at Minneapolis and St. Paul in June next to celebrate by a great national gathering the hundredth anniversary of the landing of the first organized party of Norwegian settlers on this continent. President Coolidge, King Haakon of Norway and Lord Bynar, Governor-General of Canada, have been invited to attend. Meetings of some forty Norwegian organizations, divine service by the Bishop of Oslo (formerly Christiansia), field sports, musical contests and historic pageants will make up the programme.

A boy concluded his first attempt at story-writing as follows: "This is my 1st attempt at writin' a tall and it is far from being perfect, but if I have induced folks to see that in 9 cases out of 10 they can either make life as barren as the desert of Sarah or as joyous as a flower garden my object will have been accomplished."

SUBSTITUTE FOR MINERAL TAX ACT

EDMONTON, Alta., April 7.—Having failed in the attempt to levy a provincial tax on mineral rights, which was expected to yield a revenue of \$400,000 last year, the Alberta government Monday introduced a bill for a new tax on minerals. Hon. R. G. Reid, provincial treasurer, stating that the new act will impose a tax on properties where minerals are known to exist, or on properties on which the owners are willing to declare a value. This is along the line of the increment tax legislation.

No further explanation was made of the bill which is not yet printed, the measure being introduced by way of resolution.

The man who on hearing or reading those lines hasn't got an indelible picture of that scene on his mind has got a color-blind soul. Even a Burns can do nothing for him. Or, as an example of humorous, homely and true descriptions take this from the "Twa Dogs":

"At kirk or market, mill or smidie
Nae tauted tyke, tho' e'er sae dудdie
But he wad stand, as glad to see him,
An' strout an' stanes an' hillocks wi' him."

There is a curious oversight in this poem which I don't know whether any of you have noticed before or not. You remember he describes the dog Cuesar.

"His hair, his size, his mouth, his lugs,
Shewed he was nane o' Scotland's dogs,

But walpit some place far abroad,
Where sailors gang to fish for cod."

I take it this describes a Newfoundland dog, and yet all through he makes his talk in the broadest Scot's dialect. Some of you can probably defend the poet for this, but I think any Nova Scotian will bear me out when I say that it is no more possible for a Newfoundland to talk like a Scot than it is for a Scot to talk like anybody else.

While in Cranbrook last week end, we had the pleasure of visiting the new ranch of Mr. L. M. Slye. Mr. Slye is busily engaged turning up the soil in his spare moments. He has already a large patch of apple trees up to the bearing stage and hopes to ship several carloads of his fruit and vegetables to this district next fall.

Here and There

Southern Alberta is to have another addition to its growing list of titled ranchers, according to report. The Duc de Nemours, a descendant of Louis Philippe of France, it is stated, is sailing in April to visit Lord and Lady Rodney, who have a ranch at Fort Saskatchewan, and, later, to acquire a homestead near the establishment of the Prince of Wales.

The Nova Scotia Technical College assays under direction of the Dominion Council of Scientific Research indicate Nova Scotia oil shales to be the richest in the world, giving fifty gallons of high-grade paraffin to a ton of shale. One hundred million tons of the shale are readily accessible, and vast oil industries similar to those of Colorado and the Western States might well come into being in this province.

"I find general business conditions quiet but improving throughout Canada and undoubtedly the increase in the price of farm products will prove very encouraging to the west," said Grant Hall, vice-president of the Canadian Pacific Railway, on his return from a recent tour of the Dominion. "Large orders for hardware shipped over our lines of late to the west indicate that the crop money is now beginning to circulate more readily, which in its turn is a mark of the farmer's confidence in the country."

There was a general increase in all phases of the lumbering industry in Canada during 1923, as compared with the previous year, according to the latest report of the Dominion Bureau of Statistics. The average value of the output in that year amounted to \$139,894,677, as compared with \$114,324,550 in 1922, an increase of 22.4 per cent. In this respect the lumbering industry comes third on the list of manufacturing industries in Canada, with the pulp and paper industry first and the flour and grist mills second.

Passengers aboard the Canadian Pacific steamship "Empress of France" now touring the world, had a unique experience recently while visiting Ceylon. Returning from a run out to Kandy, the old capital of the Cingalese Kings and Site of the Temple of the Tooth of Buddha, a train-load of the travellers were held up by a herd of wild elephants which, hemmed in on either side by the jungle, ambulated along the track ahead. This was a feature of the journey which delighted those of the tourists who were not anxious about missing the ship.

ORDERS EXECUTED DAILY

DOBBIN ON SNOWSHOES IN ROCKIES

Taking heavy load to Phoenix Mines, Inver. Horse on snowshoes. Right Top, Country, that Trail Riders.

It looks funny and it sounds even funnier, but after all, why not? It is hard enough to carry 140 pounds on two feet in deep snow. Figure it out yourself what it would be like to quibble the poundage even though it is distributed over double the human allowance of footage.

This genial idea was put into practice by Walter J. Nixon, member of the Council of the Trail Riders of the Canadian Rockies and it was found to work out quite well. In the particular instance shown in the cuts, the task was to break the trail through deep snow to the Phoenix mine in British Columbia and this onerous task would have been impossible without some such device as the one depicted.

The idea of the Trail Riders Order came into being one rainy day last summer on a bed of white heather under a tent in the Canadian Rockies about 7,000 feet above sea level. There were present or nearby about 28 saddle or pack horses and 14 large riders who had ridden or fished along the Kootenay from the Crossing to the river's unmapped source in Watfield Basin and had landed on the plateau beside Tumbling Glacier at the head of the Wolverine Pass. It was there and then decided to form the Order and butters were awarded to those who had travelled distances on the trail from 2,500 miles down to as low as fifty miles. Among the

2,500 mile button holders is Mr. Nixon.

The first Pow-Wow of the Order was held last summer in the Yoho Valley and with the co-operation of the Canadian Pacific Railway accommodation at the Bungalow Camp at Takakaw Falls was supplemented with twenty Indian legends and a large circular tent decorated as a sun dance lodge. It was expected that 150 people would be present but actually no fewer than 207 were counted at the inauguration. It was at this function that the bronze plaque of Tom Wilson, one of the outstanding old-time guides of the Canadian Rockies, was unveiled.

The next Pow-Wow will be staged take place early in August of this year beside Wapta Bungalow Camp

after a three day (45 mile) cross-country ride from Marble Canyon on the Banff-Windermere Road. The trail to be used calls at the Vermilion Falls, climbs up Tumbling Creek to the Wolverine Plateau where it connects with a new trail over the High Alps east of Helmit and Goodair, and after dropping down to Goodair Creek rises again alongside McArthur Pass to Lake O'Hara and so to Wapta. This route traverses some of the most spectacular scenery in the world.

Membership in the Order of the Trail Riders of the Canadian Rockies has increased greatly in the first year of its formation. At the August Pow-Wow there should be nearer a thousand than the 200 odd participants in the function last year.

THE HELPLESS MALE

In a school just opened at Battersea bachelors are being taught to cook.

That is unreasonable. Why should all this attention be lavished on bachelors?

Bachelors have no home life. They can eat in restaurants.

But the poor benighted, who has an investment in stoves, pots and pans and other kitchen furniture, must eat at home as a measure of economy.

Why not teach married men to cook? And make the mad jangle wife pay for it out of her winnings?

These Battersea people are off on the wrong foot—Vancouver Sun.

HIDDEN TREASURE SALE

Pedestrians passing by Trono's jewelry shop on Saturday will doubtless view with surprise a store window barred to prevent breakage and filled with parcels done up in fancy style.

Each of these parcels is guaranteed to contain an article or articles whose regular retail value is more than one dollar. Scores of the parcels contain articles worth from two to ten dollars, some more. There are even diamonds, rings and pearls, watches and many more articles of merit in jewelry, silverware, glass, brass, leather, ivory, pens and pencils, and novelties. These are all offered for a few days only at \$1.00 each.

Mr. Trono is taking this unusual and drastic way of reducing his large stock before inventory. The sale is for cash only, without privilege of exchange or return.

They Paid Up

The editor of a Kansas paper states that he borrowed a Winchester rifle recently and started up the street to deliver the weapon to its owner. The delinquent subscribers got it into their heads that he was on the warpath and every one he met insisted on paying what he owed him. One man wiped out a debt of ten years' standing. On his return to his office he found a load of hay, fifteen bushels of corn, ten bushels of potatoes, a cord of wood and a barrel of turnips that had been brought in. All the country editors are now trying to borrow Winchester.

First Hunter—"Killed anything?"

Second Hunter—"Not a thing."

Wish I'd gone motoring now."

AMERICAN CONSULAR SERVICE

Persons born in Europe, irrespective of length of residence in Canada, can as a rule be admitted to the United States only upon the quota of their respective countries of birth. The

Austrian, British, Czechoslovakian, Finnish, Italian, Norwegian, Polish, Russian and Syrian quotas are closed until July 1st, after which new waiting lists will be opened. Certain classes, i.e., ministers, professors, students, relatives of American citizens, and skilled agriculturists are either exempted from or granted a preference on the quota; but strong proof is required in all such cases.

Where the emigrant is born in North America—whether Canadian born or naturalized—he is not subject to the quota, but may call at the consulate without previous notice to secure Immigration Visa. He must bring with him: (1) birth certificate in duplicate, establishing birth in North America; (2) testimonial in duplicate, on printed letterhead, from last employer, pastor or the police, certifying to length of residence, occupation and character; (3) two photographs of each person, at least one inch face; and (4) the visa fee of \$10.20 per person.

His wife or children, if accompanying or following to join him, are exempt from the quota, even though of European birth.

Each emigrant, large or small, must procure a separate visa, which can be obtained only by appearing personally before the consul—the term "visa" meaning "seen."

American citizens residing in this district sometimes encounter difficulty at the Boundary, through inability to satisfy the Immigration Officer of their nationality. This possibility may be obviated by carrying a Registration Certificate.

Such certificates are granted, however, only to American citizens who register at the Consulate. Americans desiring a certificate should accordingly first procure their birth certificate—without which their application cannot be considered—and forward it with two photographs and a fee of \$1.02 to the consulate. A Registration Certificate will then be mailed them upon approval of their registration by the department.

Persons owning foreign allegiance and British subjects who have resided

less than 12 months in Canada, are admitted to the United States only upon valid passports from their own consular offices, visaged by the American Consul at Fernie.

American citizens, Canadian citizens, native born or naturalized, and other British subjects who can show 12 months residence in Canada, may visit the United States without passport or visa. It is unnecessary to apply to the consulate in such cases, as the consul is without authority to grant testimonials or letters of introduction to visitors of these classes.

PRAIRIE SUMMER RESORTS FEATURED IN NEW BOOKLET

Outside of the prairie provinces themselves, the idea has prevailed for years that within the borders of Manitoba, Saskatchewan and Alberta, there was little to be found in the way of watering places where visitors to this country could find it worth while to stop off and enjoy themselves for a day. And until the present year little has been done to offset the growth of such an erroneous idea. This year, however, as part of its summer tourist literature, the Canadian National Railways system has issued a new booklet under the title of "Summer Resorts, Manitoba, Saskatchewan, Alberta," which will do much toward bringing the beauties of these provinces to the notice of people both at home and abroad.

With the growth of the tourist traffic into Canada, it is inevitable that new places of enjoyment should be sought, and the new publication should have a great effect in attracting to these provinces many tourists who would otherwise never learn of the attractive lakes and river resorts which here await them.

The romance of the new book says: "The romance of the transition from the buffalo hunting grounds of the Red Man to the field of exploitation of the white is now history. Day after day the early explorers pushed their way across unbroken solitude; always the same vista. Today, splendid trails run across the space and from the first break of dawn until the lingering twilight shuts out the view, the eye strains and fails to see any discord in the symmetry of the prairie gardens."

"In this land, rich in Indian history and legend, the white man has made summering places in the various provinces accessible to both city and country people who come, year after year, to find rest, health and recreation, returning with new poise, energy and strength, with sun-tanned faces and hardened muscles."

"The prairie provinces (Manitoba, Saskatchewan and Alberta) are favored with a moderate climate. In summer the mercury frequently rises to between 90 and 100 degrees in the shade, but the warm days are tempered by nights which are invariably cool and comfortable. The long summer evenings, when the sky remains bright until twilight or later, are a most enjoyable feature."

The booklet will be distributed through the railway and tourist agencies in various parts of Canada and the United States.

Information furnished by J. Frank Calhoun, packing contractor and general merchant, shows that during the 1924 hunting season, parties secured 12 moose, 28 caribou, 28 goat, 81 sheep, 18 black bear and 11 grizzlies in the Telegraph Creek district of British Columbia. Of the caribou, the largest, shot by J. J. Sartori, of Brooklyn, N.Y., has a spread of 47 inches, is 39 1/2 inches long and has 27 points. The largest sheep horns were 41 1/2 inches long, with a spread of 31 inches, and were secured by A. D. Stewart, of New York.

The third annual Eastern International Dog Sled Derby, run off at Quebec on February 19, 20, and 21, was a tremendous success. Twenty-two mushers, and their teams from many parts of Canada and the United States competed over the 120-mile course, the race being won by Emile St. Godard, of Le Pas, Man., who also won this year's derby at that place. The last day's lap was run through a sliding snowstorm, which gave the thousands of sports visitors from Canada and the United States who witnessed it a vivid impression of normal conditions experienced by these outfits.

Citizens of Vancouver and district were subjected to compulsory vaccination on account of a mild-type small pox epidemic. Objectors were ordered isolated.

Easter!

Swift's Premium—The National Breakfast

In thousands of homes in Canada, Swift's Premium, as the world's highest standard of quality, is served all year round. But for Easter Morning this supreme quality Bacon has an added appeal—Swift's Premium has become almost the national dish on this bright feast day—when nothing but the best is adequate.

If you have not experienced the delicious flavor and uniform goodness of Swift's Premium—this coming Easter Morning would be a fitting occasion on which to try it.

Swift's Premium Hams and Bacon

Be careful to get Swift's "Premium" when you buy Bacon or Ham—make sure of it this coming Easter Morning. Order from your Butcher or Grocer.

Swift Canadian Co. Limited

Look for this blue identification tag when you buy a whole ham or when you buy a slice.

TOO MUCH EXPECTED FROM HIGH SCHOOL

A manufacturer in a large city in New York, wanting information as to the cause of rust breaking sectional boilers, sought and acquired it from technical authorities. But while getting it he thought it would be a service to the vocational department in a high school of his city to interest about 400 students in the chemistry department and through the superintendent offered generous prizes for three best essays on the subject.

That was in October, and two weeks ago, having heard nothing from his offer, he asked the superintendent when the essays would be ready for the judges. He was told that when the master was presented to the chemistry students it aroused much interest, but it died out entirely and not an essay had been submitted.

The manufacturer's purpose was to arouse interest and stimulate the students to use their brains, and to subject and write something on the information they had secured. He now is wondering what will become of such students when they get out in the world and are confronted with the necessity of earning their own living.

It is unwise and misleading to draw general conclusions from specific instances, but the president of the National Founders' association, to whose attention the member manufacturer brought the disappointing experience, thinks "there is little reason to doubt that this experience might be duplicated in many other schools." Children, he says, get a smattering of chemistry, of physics and of manual work, but there does not appear to be any disposition either on the part of the state or others to stimulate these students to make a real study of the subjects taught.

That severe judgment fails to take into consideration the limitations of the student's time, the long stride of science within a generation, and the fact that from sheer necessity little more than a smattering of any branch can be required in high school, or even in college.

It is the custom to say of this man or that woman, that he or she was educated in the public schools or in some academy or college, but the truth is that no one ever acquired an education, using the term in its true sense, in any school or college. A smattering is all that even the brightest or most industrious student can get in high school or even within college walls. The real education is the product of a lifetime of study and experience.

All that any high school can do is to give the student material within its classes in chemistry or any other branch of science, to interest the student and start him on a long, long road. The vast majority will soon weary of the road and drop away, but a few will persevere and from their ranks American industry will draw the young men and women who will save and adorn science 10, 20 or 40 years from now.

The vast majority quickly tire of this severe application, and the price of success in any line, and that

"Made in Canada under Government supervision."

A Real National Policy

The welcome announcement comes from Ottawa that at long last a real effort is to be made by the Federal Government and the Canadian National Railway in an endeavor to overcome the geographical obstacles which separate Western Canada from the central Provinces, and the central provinces from the Maritimes, and in so doing assist to make Canada independent of the United States in so far as one article at least is concerned, namely, coal.

Ever since Confederation became an accomplished fact it has been the aim of all governments to develop the Dominion along east and west lines and thus make it, as far as possible, self-contained, self-supporting national unit. Hundreds of millions of dollars have been expended in the effort in the construction of transcontinental railways, building of canals, development of harbors on the Atlantic and Pacific coasts, and in the maintenance of a so-called national fiscal policy.

Nevertheless, rich as the Dominion unquestionably is in natural resources of all kinds, and in particular, with billions of tons of coal, the central Provinces of Canada have remained dependent on the United States and gone on importing fuel supplied to the extent of approximately one hundred millions of dollars annually, with the result that the importation of coal has constituted the chief item in our adverse balance of trade with the United States.

The difficulty has been, of course, that Canada's coal deposits are to be found in the extreme eastern and the extreme western Provinces while the bulk of Canada's consuming population and manufacturing industries are to be found in the central Provinces, and the cost of transportation of coal has been too great to enable it to be laid down in Ontario and Quebec in competition with United States coal.

Thus Canadian dollars have paid the wages of thousands of miners in the United States, have provided tonnage and revenues to United States railways, and paid dividends to United States mine owners, while Canadian miners and railways have lacked employment and our natural resources, which should have been adding to the wealth of Canada, have remained undeveloped, and the people and industries of the central Provinces have lived in the precarious position of possibly having their fuel supplies shut off at any time that labor conditions forced a fuel shortage across the line.

In an effort to correct this situation the Government has announced a two-fold plan. First, arrangements have been made with the Canadian National Railways to transport 100,000 tons of Alberta coal during the spring and early summer months to Ontario at the low rate of \$7.00 per ton, or only a little more than one-half the present rate. This movement will take place at the season when railway traffic is at its low ebb. The experiment in haulage of these solid trains of coal will be closely watched, and from the experience gained it is hoped that, while no great profit is expected to result to the Canadian National Railways directly, there will not be any great operating losses, and that employment will be provided during an otherwise slack period.

To meet the Maritime problem the Government proposes to pay a bonus or royalty to concerns which will develop plants for the turning of Nova Scotia coal into coke to be sold in the central Provinces in competition with United States anthracite. This Nova Scotia coal can be brought by water transportation to Montreal—the cheapest form of transportation—and, in addition to coke, several other by-products of commercial value can be obtained.

The success of this two-fold experiment in providing Canadian coal for Ontario and Quebec, and thereby keeping Canadian money at home, providing employment in the extreme east and west, and keeping our own transportation companies busy, rests very largely, if indeed not wholly, with the people and manufacturers of the two central Provinces. They are strong advocates of national policies in the matter of tariffs, exports duties on raw materials, etc. It now remains to be seen whether they will prove equally strong supporters of a national coal policy, or whether they will continue, doing as they have done in the past, follow the line of least resistance, the easiest way, and go on buying United States coal which is, comparatively speaking, at their doors, to which they have so long been accustomed to using, and for the use of which their plants have been designed.

For the sake of Canada it is to be hoped the central Provinces will take a big national view of this matter and join with the Government, the National Railways and the coal dealers in making this experiment a success. To be successful it must be persisted in, but if persisted in, Canada can undoubtedly become independent so far as its fuel supply is concerned.

Has Few Traffic Cases

Jerusalem Has No Motoring Fatalities and Fines Are Low

Well, anyway, there are some attractions about life in modern Jerusalem. There are few motor accidents and no traffic courts. Frederick Partridge, of the Jerusalem police department, visiting the New York traffic court, was amazed when he was told that the court handled 40,000 cases and collected \$500,000 in fines last year. Jerusalem, he said, had no motoring fatalities, and the traffic cases are so few that they are tried in the regular municipal court. The fines, too, should be an attraction. Jerusalem's fines run from 50 cents up.

The hide of a cow produces about thirty-five pounds of leather; that of a horse about eighteen pounds.

Today China probably has the largest number of soldiers of any nation.

The Entente Cordiale

Says Relations Between Britain and France Were Never Better

"Relations between France and England were never more cordial than they are today," said Hon. W. C. Nichol, lieutenant-governor of British Columbia, on his return to Canada recently from a visit to the former country.

"When I left," he said, "an earnest endeavor was being made on both sides to bring about a situation that would remove the shadow of war from Europe and promote general trade and export."

Referring to his own province, the lieutenant-governor said that there was every indication of British Columbia being swamped with tourists this year from the old countries as well as from the United States, and he expected much settlement and land development there this year, partly as a result of the tourist traffic of former years.

BEAUTIFY IT WITH

"DIAMOND DYES"

Perfect home dyeing and tinting is guaranteed with Diamond Dyes. Just dip in cold water to tint soft, delicate shades, or boil to dyer rich, permanent colors. Each 15-cent package contains directions so simple any woman can dye.

Canada At Wembley

C.P.R. Pavilion at British Empire Exhibition to be Renovated

Work is already in progress on the complete renovation of the Canadian Pacific Railway Pavilion at the British Empire Exhibition. The pavilion will be re-arranged and many new features added, and the million or so people who saw this exhibit last year will have an opportunity of seeing new phases of Canada's agricultural, industrial and social life. During the 1924 exhibition over a million pieces of literature were issued and it is hoped that this year—providing the weather is better than last year—that the attendance at the Canadian Pacific Pavilion will be at least double the number then attended in 1924.

Makes Breathing Easy. The constriction of the air passages and the struggle for breath, too familiar evidence of asthmatic trouble, cannot daunt Dr. J. D. Kellogg's Asthma Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under very severe conditions. It is no untried, experimental preparation, but one with many years of strong service behind it. Built from your nearest dealer.

Would Run U.S. Fishermen

A resolution was passed at a meeting in Prince Rupert, B.C., of the Retail Merchants' Association and the Fish Boat Owners' Association, asking the Dominion Government to close all British Columbia ports to United States fishing vessels whose owners or captains do not maintain a residence in British Columbia, or do not buy their supplies at these ports when selling their fish therein.

The worms that infest children from their birth are of two kinds, those that lodge in the stomach and those that are found in the intestines. The latter are the most destructive, as they cling to the walls of the intestine and if not interfered with they work havoc there. Miller's Worm Powders dislodge both kinds and while expelling them from the system serve to repair the damage they have caused.

Sirens For Submarines

Electric sirens for submarines have been invented by a Swedish engineer to prevent collisions of the boats and to warn other vessels to clear out of the way when the subs are about to return to the surface of the water.

World's Largest Negro Colony

With A City

In one square mile of the Harlem district of New York is housed the largest gathering of Negroes in the history of the world, according to the Survey Graphic, a magazine owned and edited by Negroes, the first number of which has just been issued. Its announced purpose is to interpret Harlem as the capital of the Negro World. James Weldon Johnson, who has attained prominence by his work in the promotion of Negro welfare, says:

"Harlem now stands for the Negro Metropolis. It is not merely a Negro colony of community. It is a city within a city, with new apartments and handsome dwellings, well paved and well lighted streets. It has its own churches, social and civic centres, shops and theatres. "Within this belt of seventy or eighty blocks can be found colored people of British, French, Dutch, Spanish, Arabian, Danish, Portuguese and native ancestry."

Takes Strange Oath

French Communist Deputy Takes Oath On Sickle and Hammer

"I will only consent to be sworn on the symbols of my religion," declared Gaston Dugues, former Communist deputy, when he appeared before the parliamentary committee at the French capital, which is investigating election campaign funds.

Chairman Mistral said he was afraid he could not oblige the witness with the necessary symbols, but M. Dugues said he was prepared for that.

From a portfolio he drew forth a hammer and a sickle, the two of the blade guard by a cork, crossed them on the table, raised his hand, and declared in a loud voice:

"I swear on this emblem of the Union of the Workers of the City and of the Fields, to tell the truth, the whole truth, and nothing but the truth."

The members of the committee held their sides in laughter.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

ECLIPSE FASHIONS
Exclusive Patterns
by Seattle

Boys' Suit, Showing an Attractive Combination of Materials

Careful thought must be given to outfitting the young boy, as the clothes he wears should be suitable for general utility wear. The suit No. 1021 consists of blouse with long or short sleeves, and straight side-closing trousers with button to the blouse. It may be made of all one material, or of combination of contrasting materials as shown in the sketch. The pattern is cut for sizes 4, 4 and 6 years, the four-year size requiring 1 1/4 yards of 36-inch material for the blouse, and 1 1/4 yards for the trousers and blouse trimmings.

Wreaths On Overseas Graves

Canadians Who Wish to Have Graves of Soldiers Who Fell in Great War Cared For Can Do So Through St. Barnabas Hostels

"And yours are there and so are mine, Rank upon rank and line on line."

At this time of the year the relatives of fallen heroes of the war are longing for an opportunity to visit the graves in France, particularly to see that they are appropriately cared for at Easter. Unable to do this, it is reassuring to know that there is an agency through which they can have wreaths put on the graves and which will thoroughly and reverently perform this act of faith.

St. Barnabas Hostels, 7 Hobart Place, London, S.W.1, is such an institution. By arrangement with them wreaths of various sizes and qualities can be placed on the grave of a fallen soldier and can be done by Easter, providing the location of the grave can be given them ten days beforehand. Wreaths can be placed on graves at Christmas, Easter and Armistice days, and on other occasions by special arrangement if it is so desired.

On each occasion the hostels provide the relatives with a small photograph to show that the request has been carried out.

People can also become annual subscribers to the hostels, in which case they are entered in the register and wreaths will be placed on specified graves every Easter without further notice. A report of the condition of the grave is made and sent to each subscriber each year.

Coming highly recommended by the Imperial war graves commission, St. Barnabas is one of the institutions engaged in this work that can be relied upon to the utmost. One of the reasons that long notice is required is that this work and the photographic work very often entail long journeys by car over bad roads.

The same institution has organized a number of pilgrimages of old country people to Flanders Fields. A great deal has been written of these impressive ceremonies attended by large gatherings of mourners. But these pilgrimages are out of reach of many Canadians, in which case the services that can be performed for them is the work of placing flowers on the graves and providing the relatives with the knowledge that it is done.

For Sore Feet—Miranda's Liniment

Experiments have proved that baroncles do not attach themselves to ship bottoms painted certain colors. They collect in large numbers only on bottoms with blue and black plates, staying away from white, yellow, red and green colors.

Curative Value Of Radium

Important Discovery in England May Be of Great Benefit

The experts of Middlesex Hospital in London, the centre of British radium research, have announced an important discovery enabling the curative value of any given quantity of radium to be multiplied thousands of times.

Briefly, the discovery consists in bottling radium gas, known as radon, in tiny glass tubes. Radium emits three kinds of rays, known as alpha, beta and gamma, but hitherto only the gamma rays have been harnessed.

The present success concerns the beta rays, which the experts now are capturing, purifying, condensing and confining in glass tubes, a little thicker than a human hair, to which is given the name of "needs."

These needs are prepared to be distributed to other hospitals for curative purposes and the suggestion is that they may prove useful in treating cancer, although experts deprecate the idea that they are likely to prove revolutionary or offer a sure cure. The alpha rays are very weak and are regarded as negligible.

ADDITIONAL LOCALS

The warm weather of the past week has caused the rivers and streams in this vicinity to rise considerably, but so far there is no apparent danger of flood.

With three years of steady work in sight and the circulation of a fortnightly payroll at Coal Creek and Michel, both Fernie and Michel are booming.

Among the successful second-year students at the Claresholm School of Agriculture we note the names of Miss Marjorie Porter and Mr. S. Snyder of Cowley.

Kimberley is working full blast for seven days a week. No positions are available for others because the work there are contented and the staff of today is practically the same as that of two years ago.

Inspector Bruce, of the Fernie detachment of the Royal Canadian Mounted Police, will likely transfer from the "K" Division to White Horse in the Yukon. He expects to leave Fernie about May 1st.

Messrs. A. W. Wetherpoon, of Spokane; Dr. C. Bothine, R. W. Smith, M. A. Allen and George Watkins Evans, of Seattle, registered at the Greenhill Monday. These gentlemen are directors of the Corbin Coal Company, and held a business meeting in Blairmore.

Michael J. Haney, former president of the Home Bank, has been found guilty on fifteen counts in a true bill. Haney was chief engineer on the construction of the railway through this section of Alberta in 1897, when the road was built through from Lethbridge to Kootenay Landing.

The attempts of the I.W.W. to create jobless men at Calgary and Edmonton have at last been practically frustrated. Hundreds of men had jobs of various descriptions offered them, but on the advice of their ill advisers the men would not accept work under any consideration.

Peter Veregin, junior, has cabled from Russia, announcing his coming to Canada as Doukhobor leader-elect. He is expected to arrive in about two weeks.

Mr. G. H. Thompson has resigned his position as chief electrician with the West Canadian Collieries in Blairmore and will take up a new position at Calgary.

The remains of the late Harvey Knauss, who lost his life by electrocution at Coleman on Saturday last, were laid to rest in the Coleman Protestant cemetery on Tuesday afternoon, following a service held in the Institutional church.

At the monthly meeting of the Blairmore BOBS on Thursday evening last, the whole programme of baseball, tennis, etc., for the coming season was discussed. It was decided to build a third tennis court at the Union church grounds.

Arthur Grant, golf course specialist, returned from Cranbrook on Monday night, where he had been called to reset several dislocated greens on the golf course. Dr. Grant has done excellent service on the local course and his fame has become known abroad.

Despite the absence of official confirmation, the belief persists that the re-opening of the Nova Scotia coal mines, closed down five weeks ago, when the British Empire Steel Corporation refused to meet the demands of its 12,000 miners for the restoration of credit at the company's stores and the operation of three idle mines on a minimum basis of four days a week, is only a matter of days.

An amendment to the School Ordinance, now being introduced in the legislature, would remove from the list of compulsory holidays the king's birthday, Ash Wednesday and Labor Day, though school boards will be given power to declare any of them a holiday. Under certain circumstances the four days following Easter may be observed as holidays.

Free meals are sometimes served to visiting tourists to Kimberley. And it is also noted that over fifty per cent of such visitors are of Scotch extraction.

The Crows' Nest Pass Motors have this week unloaded several carloads of autos, chiefly Chevrolets and Studebakers. Others are on the way from the factories.

The C.P.R. are rushing trainloads of rock from the Frank Slide to Lethbridge and other points along the railway where danger from high water might threaten.

Floyd Fitzsimmons, fight promoter, has offered Jack Kearns, manager for Jack Dempsey, world's heavyweight boxing champion, \$300,000 for a fight between Dempsey and either Firpo or Renault, to be staged at Michigan City on Labor Day.

Gerald Chapman, spectacular mail bandit and jail breaker, was sentenced to be hanged in the Connecticut state prison on June 25th, in payment for the life of a New Britain patrolman, of whose murder last October a jury found him guilty.

The many local friends of Mr. A. Siler, former pitcher for the Cowley baseball team and later connected with the Blairmore team, will regret to learn of the death of his wife, formerly Miss Lottie Speers. Both Mr. and Mrs. Siler were very well known throughout this corner of the province. Miss Speers was for a time waitress at the Cosmopolitan hotel here. She is survived by a husband and baby.

The first dedication of a Union church, so far as known, in Western Canada, since the act of parliament making possible the union of the Congregational, Presbyterian and Methodist churches, took place in East Calgary on Sunday last. This was made possible by the union of the congregation of Trinity Methodist and the Union members of St. Andrew's Presbyterian churches under the name of Cushing Memorial church.

COWLEY HAPPENINGS

Mrs. M. A. Murphy and Mrs. Lionel Peel were visitors to Hillcrest on Friday.

Miss Gladys Baines, of the Union Bank staff, Pincher Creek, was a Tuesday visitor to town.

Willie McKay, Lena Werley, Thomas Sheppard and Bill Brown have gone to Calgary to attend the spring stock show.

A very interesting meeting of the Women's Institute was held at the home of Mrs. James Leigh. A motion was made and passed to have a moving picture show here in the near future, proceeds to help toward the Institute funds.

Mrs. Crawford, accompanied by her two children, of Alexo, stopped off here to pay a day's visit to Mr. and Mrs. James Leigh, on her way to Hillcrest, where she will visit her mother, Mrs. Ryan, for several weeks. Mrs. Crawford was formerly Miss Jennie Ryan.

An unusually large crowd was present at the whist drive held here on Wednesday last. The prizes were awarded as follows: Ladies' first, Mrs. Lawrence Cleland; ladies' second, Miss Doris McEwen; gentlemen's first, James Irwin; gentlemen's second, Johnny Johns. The next and final whist drive of the season will be held on Wednesday, April 16th. Besides the regular prizes, there will be special prizes offered. Mrs. Harry Hannan and Mrs. Robert Littleton were on the committee.

On April 4th, a meeting of the ratepayers of Municipal District No. 70 was held at Cowley, to discuss the matter of the liability of the guarantors of the U.F.A. Feed Purchasing Committee in 1920. A considerable amount being still outstanding and the directors of the U.F.A. being held liable for the losses, it was thought advisable to avail themselves of the recent legislation permitting municipalities to assume such liabilities. However, there was considerable dissent in the largely attended meeting, certain sections of the district being adverse to assuming the liability, and after much discussion the resolutions committee brought in a motion that the liability should be shouldered by the district. This was, however, defeated, and it was finally decided that the district assume only \$2000 of the total. If the ratepayers were charitable enough to recognize the claims of the directors, fellow farmers, in any extent, it is deplorable that their charity should have been confined to a mere twenty-five per cent.

A Windsor, Ontario, man claims that he was moved by a religious impulse to rob a church. Many murders and other crimes are also the result of a so-called religious impulse.

Capt. James A. Farquhar, veteran seaman of Halifax, at the age of 83 years will command the bridge of a new steamer he has purchased in England and will bring her across the pond.

People in parts of Ontario who are kicking about the stormy weather prevailing there should move to Alberta, where we have continuous sunshine by day and enjoy the reflection by night.

It is indeed interesting to note that certain parties who fought hardest for "standing pat" among the miners were among the first to rush up to sign on with the coal company on Tuesday.

A grant dance will be held in the Lundbreck community hall on the night of Friday, May 15th, under auspices of the Lundbreck Women's Institute. Mason's orchestra will furnish music.

It is expected that the auto road through to Fernie from here will be open for traffic in about a week. Work on the bluff at Coleman is proceeding rapidly and will be passable some time next week.

Mrs. Esther J. Woodsworth, aged 78, pioneer resident of Manitoba and mother of J. S. Woodsworth, M.P., died at Winnipeg on April 7th.

The only difference between the beer obtained in British Columbia and that served in Alberta is that the Alberta stuff is only "near beer."

We offered a man some roots of horseradish for transplanting the other day. He declined to accept them, saying that he owned an auto.

According to figures compiled by the church union bureau, the United Church of Canada has a total of 7900 congregations, with a membership of 401,393. The anti-unionists number 400 congregations, with a membership of 73,500.

Mr. Steele, of Calgary, assistant inspector under the federal mines act, was a visitor to this district last week end. Mr. Steele was a former member of the firm of Woods & Steele, geologists and surveyors, Pincher Creek.

The Nanton News remarks: "The greatest difference between the 'unemployed' who are trying to bully the provincial government and the 'business interests' that are trying to belly the Dominion government is in method. The work of the unemployed is coarse; but the other fellows have had more practice, and still their work is rather coarse, too, sometimes."

One hundred million dollars changed hands with the sale of the Dodge Brothers automobile business at Detroit. Dodge Brothers' business was the outgrowth of a small machine shop started 35 or 40 years ago by Horace E. and John F. Dodge, now both deceased. Later, through associations with Henry Ford, the shop became the foundation of the present motor industry and one of the larger of the Detroit-made fortunes in the automobile business.

Ontario teachers are offered a trip by special train over the Canadian National Railway in July. Stops will be made at Winnipeg, Saskatoon, Edmonton, Jasper Park, Prince Rupert, thence via steamship through the wonderful scenic seas of the north Pacific coast to Vancouver, returning via Portland, Yellowstone National Park, Salt Lake City and Estes National Park, through Chicago and back to Toronto. The start will be made from Toronto on July 9th.

"Made in Canada under Government supervision."

A Real National Policy

The welcome announcement comes from Ottawa that at long last a real effort is to be made by the Federal Government and the Canadian National Railway in an endeavor to overcome the geographical obstacles which separate Western Canada from the central provinces, and the central provinces from the Maritimes, and in so doing assist to make Canada independent of the United States in so far as an article at least is concerned, namely, coal.

Ever since Confederation became an accomplished fact it has been the aim of all Governments to develop the Dominion along east and west lines and thus make it as far as possible, a self-contained, self-sustaining unit. Hundreds of millions of dollars have been expended in the effort in the construction of transcontinental railways, building of canals, development of harbors on the Atlantic and Pacific coasts, and in the maintenance of a so-called national fiscal policy.

Nevertheless, rich as the Dominion unquestionably is in natural resources of all kinds, and in particular, with billions of tons of coal, the central provinces of Canada have remained dependent on the United States and gone on importing fuel supplies to the extent of approximately one hundred millions of dollars annually, with the result that the importation of coal has constituted the chief item in our adverse balance of trade with the United States.

The difficulty has been, of course, that Canada's coal deposits are to be found in the extreme eastern and the extreme western Provinces while the bulk of Canada's consuming population and manufacturing industries are to be found in the central provinces, and the cost of transportation of coal has been too great to enable it to be laid down in Ontario and Quebec in competition with United States coal.

Thus Canadian dollars have paid the wages of thousands of miners in the United States, have provided tonnage and revenues to United States railways, and paid dividends to United States mine-owners, while Canadian miners and railways have lacked employment and our natural resources, which should have been adding to the wealth of Canada, have remained undeveloped, and the people and industries of the central provinces have lived in the precarious position of possibly having their fuel supplies shut off at any time that labor conditions figured a fuel shortage across the line.

In an effort to correct this situation the Government has announced a two-fold plan. First, arrangements have been made with the Canadian National Railways to transport 100,000 tons of Alberta coal during the spring and early summer months to Ontario at the low rate of \$7.00 per ton, or only a little more than one-half the present rate. This movement will take place at the season when railway traffic is at its low ebb. The experiment in haulage of these solid trains of coal will be closely watched, and from the experience gained it is hoped that, while no great profit is expected to result to the Canadian National Railways directly, there will not be any great operating loss, and that employment will be provided during an otherwise slack period.

To meet the Maritime problem the Government proposes to pay a bonus or royalty to concerns which will develop plans for the turning of Nova Scotia coal into coke to be sold in the central provinces in competition with United States anthracite. This Nova Scotia coal can be brought by water transportation to Montreal—the cheapest form of transportation—and, in addition to coke, several other by-products of commercial value can be obtained.

The success of this two-fold experiment in providing Canadian coal for Ontario and Quebec, and thereby keeping Canadian money at home, providing employment in the extreme east and west, and keeping our own transportation companies busy, rests very largely, if indeed not wholly, with the people and manufacturers of the two central provinces. They are strong advocates of national policies in the matter of tariffs, exports duties on raw materials, etc. It now remains to be seen whether they will prove equally strong supporters of a national coal policy, or whether they will continue doing as they have done in the past, follow the line of least resistance, the easiest way, and go on buying United States coal which is, comparatively speaking, at their doors, to which they have so long been accustomed to using, and for the use of which their plants have been designed.

For the sake of Canada it is to be hoped the central provinces will take a big national view of this matter and join forces with the Government, the National Railways and the coal dealers in making this experiment a success. To be successful it must be persisted in, but it persisted in, Canada can undoubtedly become independent so far as its fuel supply is concerned.

Has Few Traffic Cases

Jerusalem Has No Motoring Fatalities and Fines Are Low

Well, anyway, there are some attractions about life in modern Jerusalem. There are few motor accidents and no traffic courts. Frederick Patterson, of the Jerusalem police department, visiting the New York traffic court, was amazed when he was told that the court handled 40,000 cases and collected \$500,000 in fines last year. Jerusalem, he said, had no motoring fatalities, and the traffic cases are so few that they are tried in the regular municipal court. The fines, too, should be an attraction. Jerusalem's fines run from 50 cents up.

The hide of a cow produces about thirty-five pounds of leather; that of a horse about eighteen pounds.

Today China probably has the largest number of soldiers of any nation.

The Entente Cordiale

Says Relations Between Britain and France Were Never Better

"Relations between France and England were never more cordial than they are today," said Hon. W. C. Nichol, lieutenant-governor of British Columbia, on his return to Canada recently from a visit to the former country.

"When I left," he said, "an entire endeavor was being made on both sides to bring about a situation that would remove the shadow of war from Europe and promote general trade and export."

Referring to his own province, the lieutenant-governor said that there was every indication of British Columbia being swamped with tourists this year from the old countries as well as from the United States, and he expected much attendance and development there this year, partly as a result of the tourist traffic of former years.

BEAUTIFY IT WITH

"DIAMOND DYES"

Perfect home dyeing and tinting is guaranteed with Diamond Dyes. Just dip in cold water to tint, or rub on shade, or blot to dye grey, permanent color. Each 15-cent package contains directions so simple any woman can dye her hair, eyebrows, or tint lingerie, silks, ribbons, knick-knacks, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything new.

Buy "Diamond Dyes"—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Canada At Wembley

C.P.R. Pavilion at British Empire Exhibition to be Relativized

Work is already in progress on the complete renovation of the Canadian Pacific Railway Pavilion at the British Empire Exhibition. Exhibits will be rearranged and many new features added, and the million or so people who saw this exhibit last year will again have an opportunity of seeing new phases of Canada's agricultural, industrial and social life. During the 1924 exhibition over a million notices of literature were issued and it is hoped that this year—providing the weather is better than last year—that the attendance at the Canadian Pacific Pavilion will be at least double the number that attended in 1924.

Makes Breathing Easy. The constriction of the air passages and the struggle for breath, too familiar evidence of asthmatic trouble, cannot, said Dr. J. D. Kellogg's Asthma Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under very severe conditions. It is no untried, experimental preparation, but one with many years of strong service behind it. But it from your nearest dealer.

Would Ban U.S. Fishermen

A resolution was passed at a meeting in Prince Rupert, B.C., of the Retail Merchants' Association and the Fish Boat Owners' Association, asking the Dominion Government to close all British Columbia ports to United States fishing vessels whose owners or captains do not maintain a residence in British Columbia, or do not bar their supplies at these ports when selling their fish therein.

The worms that infest children from their birth are of two kinds, those that find lodgment in the stomach and those that are found in the intestines. The latter are the most destructive, as they cling to the walls of the intestines and if not interfered with soon have their way. Miller's Worm Powders dislodge both kinds and while expelling them from the system serve to repair the damage they have caused.

Birane For Submarines

Electric alics for submarines have been invented by a Swedish engineer to prevent collisions of the boats, and to warn other vessels to clear out of the way when the subs are about to return to the surface of the water.

World's Largest Negro Colony

District in New York Is "A City Within A City"

In one square mile of the Harlem district of New York is housed the largest gathering of Negroes in the history of the world, according to the Survey Graphic, a magazine owned and edited by Negroes, the first number of which has just been issued. Its announced purpose is to interpret Harlem as the capital of the Negro World.

James Weldon Johnson, who has attained prominence by his work in the promotion of Negro welfare, says:

"Harlem now stands for the Negro Metropolis. It is not merely a Negro colony of community. It is a city within a city, with new apartments and handsome dwellings, well paved and well lighted streets. It has its own churches, social and civic centers, shops and theatres."

"Within this belt of seventy or eighty blocks can be found colored people of British, French, Dutch, Spanish, Arabian, Danish, Portuguese and native ancestry."

Takes Strange Oath

French Communist Deputy Takes Oath On Sledge and Hammer

"I will only consent to be sworn on the symbols of my religion," declared Ruffin Dugues, former Communist deputy, when he appeared before the parliamentary committee at the French capital, which is investigating election campaign funds.

Chairman Mistrail said he was afraid he could not oblige the witness with the necessary symbols, but M. Dugues said he was prepared for that.

From a portfolio he drew forth a hammer and a sickle, the point of the blade guarded by a cork, crossed them on the table, raised his hand, and declared in a loud voice:

"I swear on this emblem of the Union of the Workers of the City and of the Fields, to tell the truth, the whole truth, and nothing but the truth."

The members of the committee held their sides in laughter.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves Worm Exterminator.

ECLIPSE FASHIONS
Exclusive Patterns
By Hildesheim

Boys' Suit, Showing an Attractive Combination of Materials

Careful thought must be given to outfitting the sturdy little boy, who requires garments suitable for general utility wear. The suit No. 1021 consists of blouse, with long or short sleeves, and straight side-closing trousers, which button to the blouse. It may be made of all one material, or of a combination of contrasting materials as shown in the sketch. The pattern is cut for sizes 4, 6 and 8 years, the four-year size requiring 1 1/2 yards of the main material for the blouse and 1 1/2 yards for the trousers and blouse trimmings.

Wreaths On Overseas Graves

Canadians Who Wish to Have Graves of Soldiers Who Fell in Great War Cared For Can Do So Through

St. Barnabas' Hostels

"And yours are there and so are mine, thank you rank and line on line."

At this time of the year the relatives of fallen heroes of the war are longing for an opportunity to visit the graves in France, particularly to see that they are appropriately cared for at Easter. Unable to do this, it is reassuring to know that there is an agency through which they can have wreaths put on the graves and which will, thoroughly and reverently perform this act of faith.

St. Barnabas' Hostels, 7 Hobart Place, London, S.W.1, is such an institution. By arrangement with them wreaths of various sizes and qualities can be placed on the grave of a fallen soldier and can be done by Easter, providing the location of the grave can be given them ten days beforehand. Wreaths can be placed on graves at Christmas, Easter and Armistice days, and on other occasions by special arrangement if it is so desired.

On each occasion the hostels provide the relatives with a small photograph to show that the request has been carried out.

People can also become annual subscribers to the hostels, in which case they are entered in the register and wreaths will be placed on specified graves every Easter without further notice. A report of the condition of the grave made and sent to each subscriber each year.

Coming highly recommended by the Imperial War Graves Commission, St. Barnabas is one of the institutions engaged in this work that can be relied upon to the utmost. One of the reasons that long notice is required is that this work and the photographic work very often entail long journeys by car over bad roads.

The same institution has organized a number of pilgrimages of old country people to Flanders Fields. A great deal has been written of these impressive ceremonies attended by large gatherings of mourners. But these pilgrimages are out of reach of many Canadians, in which case the service that can be performed for them is the work of placing flowers on the graves and providing the relatives with the knowledge that it is done.

For See First—Mindard's Liniment

Experiments have proved that balm does not attach themselves to ship bottoms painted certain colors. They collect in large numbers only on bottoms with blue and black plates, staining away from white, yellow, red and green color.

Liverpool, England, is the greatest timber market in the world.

Curative Value Of Radium

Important Discovery in England May Be of Great Benefit

The experts of Middlesex Hospital in London, the centre of British radium research, have announced an important discovery enabling the curative value of any given quantity of radium to be multiplied thousands of times.

Briefly, the discovery consists in bottling radium gas, known as radon, in tiny glass tubes. Radium emits three kinds of rays, known as alpha, beta and gamma, but hitherto only the gamma rays have been harnessed.

The present success concerns the beta rays, which the experts now are capturing, purifying, condensing and confining in glass tubes, a little thicker than a human hair, to which is given the name of "seeds."

These seeds are prepared to be distributed to other hospitals for curative purposes and the expectation is that they may prove useful in treating cancer, although experts deprecate the idea that they are likely to prove revolutionary or offer a sure cure.

The alpha rays are very weak and are regarded as negligible.

A New Dairy Pail at a Popular Price

See the new SMP Dairy Pail next time you are in town. They are made of the highest quality, high finished tin, have large dairy pail ears, riveted with steel. Their solid construction, 100% sanitary. Cut out this advertisement. Show it to your grocer. He has our authority to give you a special low price on a pair of these fine pails.

TO ELIMINATE ALL SECTIONALISM EAST AND WEST

Montreal.—The council of the Montreal board of trade entertained and discussed with representatives from the Toronto and Vancouver boards, the proposed subsidy to Sir William Peterson and the effort of the Dominion Government to control ocean freight rates. All three boards are opposed to this project. Additional to this matter, some considerable attention was given to the development of business between the Atlantic and Pacific coasts of Canada by the Canadian Government. Merchant Marine, by way of the Panama Canal, while western producers were taking advantage of this route, it was shown that reciprocal advantage was not being taken by the easterners.

A lengthy discussion centered on the Toronto board's proposal for assembling representatives of the industrial, commercial and agricultural interests of Canada, with a view to arriving at a broad national economic policy, which all parts of the country might be able to support, in order to eliminate the sectionalism from which the country is now suffering. Some progress was made in working out the plan, which probably will include a gathering at some central point of representatives from all parts of Canada, and, if possible, a visit of westerners to Eastern Canada.

Representing the Vancouver board are A. Melville Dollar and W. E. Payne.

No Beer At Picnics

Will Be Strictly Dry Functions in Alberta

Edmonton.—The issuing of special beer licenses for picnic parties will not be permitted in the future, according to an amendment to the Liquor Act passed in the legislature. The amendment was introduced by Mrs. Nellie McClung, Liberal member for Edmonton.

After July 1st. of this year, club licenses will only be issued one year after the application has been made, with complete description of the premises, which must be satisfactory to the liquor control board. The object of the amendment is to allow the board sufficient time to determine whether clubs making application are bona-fide or merely attempting to obtain a license for the purpose of making money.

Fraud Brings Prison Term

Armenian Sentenced to 18 Months For Breaking Immigration Law

Ottawa.—George H. Alexander, Armenian, of Galt, Ontario, was sentenced by Mr. Justice Rose, in the Assize Court, to 18 months in the Quebec Reformatory for having conspired with Mihail Mikhrakas, of Niagara Falls, N.Y., to fraudulently obtain a naturalization certificate.

The charge against Alexander arose out of the alleged discovery by Royal Canadian Mounted Police of a conspiracy whereby bid naturalization papers were used to secure the admittance of Armenians immigrants contrary to the Immigration Act.

Sale Of Canadian Vessels

222 Canadian Vessels Are Sold Since Armistice

Ottawa.—When L. H. Martell, member of parliament for Hants, asked for a return showing how many boats of any description had been sold by the government since the armistice, with full particulars of the money involved, he started a list which reached the house in a bulky file, showing that 222 craft were sold. These comprise everything from an obsolete cruiser to a canoe. Some fetched tens of thousands of dollars, others as low as \$12.50.

Wheat Pool Officials Meet

No Cause For Alarm Over the Wheat Market

Winnipeg.—Following the monthly meeting of the board of the Canadian Co-operative Wheat Producers, Limited, here, a statement was issued which said: "The directors decided on no change in their present policy, and, while desiring the conditions of wheat in the market at this time, we see no cause for anxiety on the part of their members, in view of the strong position of the pool."

Returns to Holland

Berlin.—Princess Hurlina, wife of the former Kaiser, has returned to Potsdam, having recovered completely from a recent operation.

W. M. U. 1571

Ask Advisory Council On Unemployment

Ottawa.—A resolution, setting out the Federal Government to form an advisory council on unemployment to hold conferences on industrial research before the fall unemployment, was passed at the closing meeting of the two days' session of the national council of women executive here, this advisory council to consist of university economists and labor experts from the various provincial governments and the national council of women.

Says World's Wheat Supply Not Excessive

Will Be Needed Before Next Harvest

Winnipeg.—The Free Press publishes the following from a staff correspondent in New York: "The whole world price level has been shocked by successive and apparently unwarranted declines in the wheat market until, now, buying-confidence is lacking. In a long range view of conditions now indicates acute adjustment of supplies, stated Julius H. Barnes, internationally known marketing expert, discussing wheat conditions. After discussing the situation in the various wheat growing countries, Mr. Barnes forecast increased reliance on North America for weekly supplies, and expressed himself as a firm believer in the relatively small supply of wheat in the world and the fact that it will be all needed before another crop can be harvested."

Reject Amendment To Medical Act

Alberta Legislature Opposes Proposal of Mrs. Nellie McClung

Edmonton.—Provision for legalizing Christian Science practitioners in Alberta, introduced into the legislature last week with strong opposition, and as a result, the proposal, which was moved by Mrs. Nellie McClung, Liberal member for Edmonton, as an amendment to the Medical Profession Act, was withdrawn, and another amendment will be introduced on the same question at a later date.

The amendment reads as follows: "That nothing in this act contained shall apply to, or affect, those who practice the religious tenets of the church without pretending a knowledge of medicine or surgery, and provided that the laws, rules and regulations to contagious diseases and sanitary matters are not violated."

Dominion Pays Large Sum For Subsidies

Foreign Service Received Bulk Of Expenditure For Mail and Steamships

Ottawa.—The Dominion of Canada has expended the sum of \$46,756,500 on mail subsidies and steamship subsidies from 1867 up to the present time. This information was given in the house in answer to questions by N. H. McTaggart, Progressive, Maple Creek.

In answering the question, Hon. A. C. Bopp, secretary of state, informed Mr. McTaggart that of the total amount, \$23,062,712 had been paid to foreign services, and \$6,657,653 to local services.

Record Raid By Mounties

Find Counterfeit Money and Press in Quebec Farm House

Montreal.—One of the biggest raids ever undertaken against counterfeiters in Canada, was staged by the Royal Canadian Mounted Police at a farm house some three miles beyond L'Assomption, in Girard Parish, here, when they seized \$150,000 worth of counterfeit \$10 bills, at least 500,000 out of the same also, ready to be printed, a foot and power driven press of the most up-to-date design and other paraphernalia, and arrested seven men.

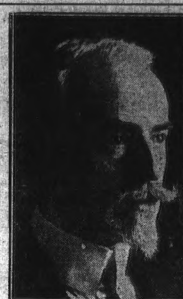

Moisture Greater This Year

Calgary.—During March 145 inches of snow fell in Calgary, making the total for the winter 68 inches, or, in terms of actual moisture precipitation, 8.8 inches. The precipitation last winter, covering the period from November 1 until March 31, amounted to 5.86 inches of moisture, or 58.6 inches of snow.

Zionist Ship Arrives

Jerusalem.—The President Arthur, arrived at Haifa, from New York. The 400 American Jews who made the voyage attended the opening of the Hebrew University here, at which Lord Balfour conducted the inaugural services.

Causes Unrest In Japan

WICKHAM STEED
former Editor of the London Times, who has created anxiety among Japanese by speech on Yellow Peril.

GOVERNMENT TO PROCEED WITH NEW GRAIN ACT

Ottawa.—Many representations coming to the government from the west have suggested the decision to go on with the Grain Act after all.

The government, from the start, favored that course, but a group of members, mainly from Saskatchewan, were persistently asking that it should be deferred until another year, having regard to the importance of the measure. No sooner was it announced that the act would be laid over than the same members demanded that it be proceeded with. However, it is not their fluctuating conduct that has counted so much as representations from many agricultural bodies, as well as the grain trade, urging that the present law, now obsolete, should be replaced by one up to date, and, particularly, that the reforms suggested in the Turgeon report should be embodied in the act. This is being done on all the essential lines, including the grading, weighing and mixing of grain, and the operation of private elevators.

"The bill will be brought down as soon as the budget is over, and referred to the agricultural committee, with the idea that it be put through before the session ends. If, however, the committee, after fully considering it and giving public hearings, should recommend delay, its report would carry great weight."

Will Not Discard Army Death Penalty

Not Punishment But a Deterrent to Others Says War Secretary

London.—The British Labor party fought unsuccessfully in the House of Commons to abolish the death penalty in the British army, an amendment introduced by E. Thurtle, Labor member, Shoreditch, to the annual army bill, being rejected by 320 to 156. Sir Lansing Warrington-Evans, war secretary, declared that only 21 per cent. of the death sentences passed during the war were carried out, 89 per cent. being quashed or reduced. The death penalty, he declared, was intended less as punishment than as a deterrent to others.

Pioneer Doctor Dies

Winnipeg.—Dr. R. L. Mattice, 78, pioneer medical practitioner of Winnipeg, died March 31, following a four-day illness from pneumonia. He had been in general practice in Winnipeg for 22 years.

Mr. J. Corbett Mitchell and his wife, of Dalnair, Sask., who returned to Canada on the Canadian Pacific line "Masterline" recently.

Mr. Mitchell, who holds the title of "Wheat Champion" and won this honor three years in succession, has been delivering a series of lectures throughout Great Britain on the advantages Canada offers for the settler.

Proposes To Settle Mosul Boundary Dispute

Turkey Offers Inducements to Britain to Report

London.—The Daily Mail has reason to believe that Turkey has made a proposal for a settlement of her difficulties with Great Britain, mainly with reference to the Mosul boundary, separating Turkey from Mesopotamia. Turkey's suggestion, the Daily Mail says, is that she shall have the town of Mosul and that part of Mosul province immediately to the south. In return, she does not desire territory further south, which is predominantly Arab, and she promises to guarantee indefinitely the frontier line to the south of Mosul.

The Mosul boundary dispute had its origin in the establishment of the Kingdom of Irak, formerly Mesopotamia, sponsored by Great Britain.

The whole dispute revolved around two main points—Turkey wants Mosul for military reasons and Great Britain insists on having control of the territory, as British interests have large oil holdings there.

Charged With Bombing Plot

Infernal Machine Found in Possession Of Toronto Italian

Toronto.—Following the discovery of a powerful dynamite bomb, a saw-edged shotgun, a handkerchief filled with shells, several boxes of cartridges and spark plugs, police have taken into custody Rafael Emiglio, in whose house the stuff was found, and Fausto Manfredi.

Charges have been laid in connection with an affair on March 25, when a bomb exploded near the home of A. Hernandez, who previously had received a \$10,000 ransom from a \$15,000 failure to pay would mean that his house would be blown up, the letter said, Bernardo, it is said, received another letter on March 25, stating "the explosion was a little one, and a big one will follow if the money is not paid."

Canadian Bakeries In Merger

Six Leading Companies Taken Over By New York Corporation

New York.—Six leading baking companies of Canada—has been acquired by the Continental Baking Corporation of this city, it was announced through George G. Barber, chairman of the board of the local corporation.

The Northern Bakeries, Limited, has been incorporated in Canada, with headquarters in Montreal, and has taken over control of the Canadian companies which operate the bakeries in seven eastern cities.

Nova Scotia Financially Sound

Status is One To Be Proud Of Says Premier

Halifax.—With the exception of Prince Edward Island and New Brunswick, the expenditures of Nova Scotia for the last fiscal year, \$5,577,872, were lower than those of any other province in Canada. Premier E. H. Armstrong declared in the legislature. The financial status of Nova Scotia, compared with other provinces, was one to be proud of and satisfied with, he said.

Russ-French Parleys

Paris.—Four Soviet experts have arrived in Paris for negotiations of an economic nature with the French Government. Leonid Krasin, the Soviet ambassador, has requested the government to set the time and the place for the first meeting.

Many Idle In Vienna

Vienna.—Unemployment in Austria is greater than at any time since the war. Nearly 300,000 now are out of work.

Consider Refund Of Grain Futures Tax

Winnipeg.—Refunding of the \$9,000, collected as grain futures tax under the act ruled vitaries of the province by the privy council and plans for meeting the resultant loss of revenue, are under consideration by the provincial government. Money collected under the act will be repaid, although the detailed process of making repayment has not been decided. A large proportion of the amount involved is held by brokers, who were awaiting the result of the prolonged litigation as to the validity of the legislation.

Geophone Used In English Mine Disaster

Instrument Indicated That None of Men Are Alive

Newcastle, England.—Military engineers brought to Chatham a geophone, an instrument constructed on the principle of the stethoscope, in the hope of being able to ascertain from sounds below if any of the 38 miners who were caught in the Mermaid Colliery by a rush of water several days ago, were alive. Nothing was heard through the instrument, and this was taken by the people of Soebwood, where the mine is, as confirming their fears that all the men and boys below have perished.

Today was the first time the geophone, which was used during the World War, was applied to a mine disaster.

St. Paul's Cathedral Closed

Work of Repairing Edifice Will Take Six or Seven Years

London.—The people of London have had their last unobstructed view of the interior of St. Paul's Cathedral for probably six or seven years, and on March 31 the last service was held under the famous dome prior to closing the entire eastern part of the edifice for the work of strengthening it.

The whole area under the dome, together with the transept choir and Jesus Chapel, will remain closed to the public until the cathedral has been made safe.

In the future, services will be held in the western end of the nave and St. Dunstan's Chapel.

ANXIETY CAUSED BY ACTIVITIES IN JAP SHIPYARDS

London.—While Franco-German relations fill the public eye in European diplomacy, it is understood that British statesmen are far more concerned over the development in the Pacific than in Europe. The latter, they are confident, can be controlled, but the former is getting beyond control and the British leaders are now visualizing an early struggle for a white Pacific.

The committee of Imperial conference have been devoting consideration to Pacific problems and reports from secret agents as well as diplomats give cause for grave anxiety. The reports indicate great secret activity in Japanese shipyards with the building of submarines and cruisers.

It is understood that the Austen Chamberlain, the British foreign minister, told Frank B. Kellogg, the new United States secretary of state, before the latter left England, that Great Britain is now convinced that events are now shaping themselves dangerously in the Pacific, and he urged an early arm conference in the hope of checking the Japanese preparations.

Naval interests are showing the keenest interest in the expressed cooperation of United States and British fleets in the Pacific and it is now an accepted fact that they will work together in the future.

Predicts Opening Of Navigation April 20

Ice Barrier At Head of Lakes Not Breaking Yet

Port Arthur, Ont.—The island stretch of solid ice which has locked the harbors of Port Arthur and Port William against navigation is beginning to show the effects of the spring sunbath, but it will be some time yet before there is any break in the ice barrier.

Captain Cousins, veteran navigator of this part, does not think navigation will be open to the head of the lakes until April 30. Reports here indicate that the ice field extends as far as the Royal, though the thick ice does not go far beyond Thunder Cape.

WOULD RESTRICT JAPANESE FROM INVADING B. C.

Ottawa.—Restrictions in Canada similar to those in force in California to prevent Japanese invading agricultural lands in British Columbia, were asked in the house by A. W. Neill, independent, Comox-Alberni, who said that Japanese women and boys were coming into his province without restriction, and the "realism" agreement concerning the influx of adult males was not being strictly enforced.

Mr. Neill complained that Japanese were working in unfair competition with white men in the fisheries and canneries of British Columbia. They sent their women to work in the canneries with three weeks' old babies strapped to their backs. The white man could not compete because they would not subject their women to such treatment. General restrictions to reduce the number of Japanese in Canada were urged by Mr. Neill.

Ship Buffalo Up North

2,000 Animals From Walworth Here To Be Transferred Soon

Edmonton.—With the building of two barges shortly at Waterways, first steps in the shipment of some 2,000 Walworth buffalo to northern reserves will be under way. "The men who are to build the barges were asked to have the barges ready by May 10, when it is expected that navigation will be open. Each barge will have capacity for four cars of buffalo, so it is expected that 200 animals will be handled on each trip to the new northern reserves."

Under the plans already made, the buffalo are to be taken to between 30 and 40 miles north of Edmonton, where they will be turned loose to roam on an extensive reserve with their wild cousins, the wood bison.

May Again Discuss Peace River Railway

Possible Two Canadian Roads Will Have Another Conference

Ottawa.—There is a possibility of another conference of Canadian railway men being called to discuss a route for the Peace River Railway. On a question from D. M. Kennedy, Progressive, for the purpose of determining whether they would prefer not to give an opinion on the "probability" of an agreement being reached between the heads of the two Canadian railways on the subject until he had a report from the committee. "It seems suggested does not come shortly," added the minister of railways, "I think I will ask them to join in another conference to discuss the question again."

New Instruments To Forecast Earthquakes

Will Be Installed In Quebec By Federal Government

Ottawa.—Announcement that the Federal Government intends to install new scientific instruments at St. Anne's in Percé, Que., for the determining in advance if earthquakes are likely to occur in the Saguenay River district, was made by E. A. Hodgson, seismologist of the Dominion Observatory, in addressing members of the Royal Astronomers of Canada.

Freight Advance Is Delayed

Increased Rate On Canned Goods Has Been Postponed

Washington.—Freight rates advanced on all canned goods, including condensed and evaporated milk, which railroads had proposed putting into effect April 1 between producing points in Minnesota, Michigan, Illinois and Wisconsin and Canadian and eastern consuming points, were held up by the Interstate Commerce Commission until July 30. An investigation will be held meanwhile.

Rail Revenues Down

Ottawa.—Gross revenues on Canadian railways decreased by \$2,269,469, or 8.9 per cent., in January, a report from the bureau of statistics shows.

Lighter freight loadings and a slight decrease in passenger traffic is reported by both railways.

The Canadian National had an operating deficit of \$126,952. The Canadian Pacific shows a decrease in the net operating revenues of \$11,226.

Air Hove In Pile Wreck

Nice, France.—Captain Pelletier D'Otley, hero of last year's Paris-to-Tokyo fight, and two passengers, were rescued when D'Otley's plane fell into the sea. The plane was wrecked beyond repair.

Local and General Items

The local schools close today for the Easter holidays.

Agnes McPhail advocates stronger representation for labor in the Dominion house.

The regular fortnightly meeting of the town council will be held on Monday night next.

Seven thousand tons of rock from the Frank Slide will be dumped near the Lethbridge viaduct.

At least 1200 European families will come to Canada this year under the Empire Settlement scheme.

A plebiscite of the electors of the local option district of Cayley, Alberta, will be taken on the 20th of April.

Work on the foundation for the new three-million-dollar concentrator plant at Kimberley will be undertaken soon.

An assembly of the native sons of Canada has just been organized at Kimberley, starting off with forty members.

Mr. Rogers, late traveller for "Molly-O" cigars, has taken up drumming for P. Burns' by-products in a section of British Columbia.

An auction sale of cattle, horses, implements, etc., was conducted by H. D. Gerry at the F. Ritz ranch, north-east of Cowley, yesterday.

Six of Fernie's eleven hotels received licences to open and operate beer parlors on Saturday last. It is thought that several others, if not all of the applicants, will receive similar favorable consideration.

John A. Carwell, one of Alberta's pioneer newspapermen, has retired from the proprietorship of the Red Deer News, which he has edited for many years. His successor is H. C. Scott, a retired barrister of Red Deer.

A meeting of mining men, business men, members of boards of trade and others interested in the mining industry, was held at Nelson yesterday, when the organization of the Eastern British Columbia Chamber of Mines was effected.

One of the biggest raids ever undertaken against counterfeiters in Canada was staged by the Royal Canadian Mounted Police at a farm house some three miles beyond L'Assomption, in Girard parish, Montreal, when they seized \$150,000 worth of counterfeit ten-dollar bills, at least 500,000 cut papers of the same size, ready to be printed, a foot and power driven press of the most up-to-date design and other paraphernalia, and arrested seven men. The seven have been given jail sentences.

Mrs. Thompson, aged mother of Mr. G. H. Thompson, electrician, met with a rather serious accident on Saturday night last, which resulted in a broken hip. She was in the act of crossing the parlor floor when she slipped and fell. She was taken to the local hospital where the bone was set temporarily, and left for Calgary by Monday night's train for treatment. Mr. Thompson accompanied her. The aged lady had plans about finalized to pay a visit shortly to her old home in Nova Scotia.

Mr. H. C. Trist, of Lundbreck, was a visitor here on Tuesday.

Rev. A. J. Mitchell, of the Taber United church, is transferring to Nordegg, Alberta.

Mr. P. Ubertino, of the Colonial Theatre, Lethbridge, was a visitor here on Tuesday.

George says: "Courtin' a widow is like playin' poker; you're apt to draw a full house any time."

Dr. Hinds has been assisting his college chum, Dr. Buckley, at Michel for the past two or three weeks.

Vancouver hopes to dump 1000 unemployed into Alberta to take positions on farms declined by the I. W. W's.

The daily sale of Wrigley's chewing gum amounts to 1,200,000 sticks. That's what advertising has done for Wrigleys.

We understand that Mr. C. Devine, of the Blairmore Iron Works, will leave with his family for another field of labor shortly.

Mrs. A. M. Elliott and daughter returned to Calgary last week end, after a several weeks' visit here with Mrs. R. W. H. Pinkney.

It is said that the amount of relief handed out at Coleman runs into the thousands of dollars, while Blairmore so far has given out only \$68.

FOR SALE—One Amrad Radio Machine, complete, including loud speaker, 2 head sets, "a," "b" and "c" batteries. Will be sold cheap for cash. Apply to Box 2007, Blairmore.

The greatest total precipitation in the province during 1924 was at Calgary, which had 24.49 inches for the year. Calgary also had the greatest amount of sunshine during the year, the total being 2271 hours.

From date of opening to October 31st last, upwards of \$775,000 worth of liquor was sold in the government store at Fernie. In the same period the amount handled by Victoria and Vancouver represented over \$15,500,000.

The Blairmore Elks' dramatic troupe were given a real reception at Cranbrook and were greeted by a large audience upon the presentation of "The Private Secretary." Elks by the score met their Blairmore friends at the depot and escorted them to the hotel, later placing cars at their disposal for sight-seeing drives. On Sunday some members of the party were treated to a trip by auto to Kimberley; others were entertained at golf. At Fernie the welcome was not nearly so cordial.

The Musical Eckardts, Swiss Bell Ringers and variety entertainers, will appear at the local opera house on Tuesday next. Besides the large peal of bells, 160 in number, the company perform on xylophones, saxophones, brass and string instruments, musical glasses and other novelties. Bernard Eckardt, comedian with the party, will entertain with comic songs, monologues and character sketches. The company's four-piece novelty orchestra will furnish music for dancing after the performance.

Mrs. W. Thomas and son Glyis are visitors to Calgary for a few days.

The first batch of tourists passed west through Blairmore on Tuesday by autos.

Premier Massey, of New Zealand, is seriously ill, following a critical operation.

With the return of the miners to work, a general revival of business is apparent.

A Canadian bred Boston terrier, raised in Toronto, has been sold to an Ohio man for \$2000.

W. Meloy left here for Cranbrook on Saturday last, where he has taken a position with the C.P.R.

We regret to note that in spite of the fact that skirts are to be shorter, there will be no reduction in price.

Norman McAuley, of Saskatoon, is spending a vacation at the home of Mr. and Mrs. A. Beck in West Coleman.

Mrs. Lonsbury, junior, was down from Coleman on Tuesday on a visit to her parents, Mr. and Mrs. Donald McLellan.

Dr. Hackney, eye, ear, nose and throat specialist, was in town from Calgary yesterday and registered at the Cosmopolitan.

At Fernie last year the electric light department made a net profit of \$13,091, and the waterworks officials were \$9,861 to the good.

A notice regarding an impounded animal gave "one hind leg" as part of the description. The other leg must have been in the grave.

The London species of flapper not only bobs her hair. She wears an Eton collar and mannish tie and its eyeglasses with diamond-shaped thingamajigs of the same color as her tie.

The Regina brewery is to be rebuilt and remodelled. Among the new shareholders and directors we note the names of Thorburn Allan, N. J. Spedding and W. Hutton. The plant will employ fifty men.

Sergt. Howard and family have left for their new home near Cardston. The sergeant is succeeded here in the R.C.M.P. detachment by Constable Mosely, of Michel. Mrs. Mosely and children arrived here on Saturday last.

The third issue of twenty-five cent paper-bills to be made in fifty years is now being put in circulation. The new bills are considered neater and more artistic in design and show a decided improvement over the old type of bill.

The Ottawa Journal states that some 1200 civil servants are in process of being eliminated from the federal government payrolls as a result of absorption of the income tax branch of the department of finance by the customs department. The transfer of the income tax branch has been proceeding quietly, but officially dates from the first of this month. The annual salaries involved, and which may be entirely pared from the federal wage bill, aggregate some \$1,500,000, it is estimated.

Rumor has it that work will shortly commence on the erection of a steel bridge crossing the Old Man River directly west of Lundbreck Falls, being the connecting link of the new road that is to run direct from Rock Creek bridge to Lundbreck, eliminating the two hills at Lundbreck and shortening the distance by about two miles. Survey for this route was made last year. It will be necessary, however, to still maintain the present road for the benefit of local improvement districts in the Lundbreck neighborhood. Another part of the roads programme is to eliminate the hill at Police Flats by building a road along in line with the railway at that point from Passburg to near Burnis. Work on the erection of the new steel bridge across Castle River, north of Beaver Mines, has commenced. This proposed new road will shorten the distance between The Pass and Beaver Mines by about eight miles.

The many local friends of Mr. J. F. Hunter, now of Calgary, formerly of the customs house here and for a time pastor of Central Baptist church, who has been in ill health practically ever since moving to Calgary, will be pleased to learn that he is now enjoying perfect health.

YEARLING GEESSE FOR SALE—Apply to Charles Patton, Lundbreck.
